

PROGRAMS

Clean drinking water is the most important element of our responses. We ensure access to clean water by supplying community sized units and/or household units that provide a family with clean water, thereby protecting them from water-borne illnesses.

Our Emergency Food Program addresses the need for nutritional support in conflict and disaster zones. The program delivers calorically dense meals while maintaining the dignity of the beneficiary by offering culturally appropriate solutions.

Our specialty team deploys Unmanned Aerial Vehicles into disaster situations. The UAVs are used to provide situational awareness, comprehensive damage assessments, and support to SAR teams by producing detailed emergency maps and collecting real-time imagery.

Our Flood Response program uses a multi-pronged approach to support communities affected by flooding. By utilizing advanced sandbagging machinery and providing clean-up kits, we are able to support both flood mitigation and recovery.

Our medical program deploys field hospitals, deploys mobile medical teams to provide primary healthcare to affected populations, provides equipment to hospitals, and provides training for medics emergency response teams.

We provide critical infrastructure tenting for hospitals, clinics, feeding centres, temporary family housing, schools, etc. We also build permanent housing through our Compressed Earth Block Project.

WHEN DISASTER STRIKES, WE RESPOND

ABOUT US

The David McAntony Gibson Foundation (DMGF), which operates as GlobalMedic, is a registered Canadian charity whose purpose is to relieve poverty and promote health by providing the necessities of life, including food, clean water, medical supplies and/or shelter to victims of disaster.

We were founded based on the idea that aid could be delivered more effectively and efficiently. Our goal has always been to get the **right aid to the right people at the right time**. Professional emergency workers along with other professional and skilled volunteers help deliver our programs to the people who need it most.

Whether it is re-imagining existing products, developing our award winning RescUAV program or finding new ways to engage Canadians, we are always looking forward.

OUR IMPACT

Fiscal Year 2019

32 Responses

40 Community Water Purification Units Deployed

12,300+ Hygiene Kits Delivered

38,670 Family Emergency Kits Distributed

853,000+ Emergency Meals Distributed

335,000+ Beneficiaries Reached

HOW YOU CAN HELP

DONATE

We rely on public donations to fund our emergency programs. Please visit our website at www.globalmedic.ca/donate to find out how you can support our responses.

VOLUNTEER

Our volunteers are a crucial part of GlobalMedic's operations. By providing their time and effort, GlobalMedic is able to assemble and distribute aid with minimal cost, allowing more people in need to receive assistance.

To find out more about how you can volunteer to help pack aid, or become a deployable member of our Rapid Response Team, please visit our website at www.globalmedic.ca/volunteer.
